

# NEXT GENERATION SOCCER ACADEMY

ATHLETE EVALUATION

CYCLE

MID-2020/21

## OVERVIEW

### INTRODUCTION

At Next Generation Soccer Academy, we know the power of objective and actionable feedback. We created our athlete evaluation tool so coaches, athletes and their families can share realistic feedback and help kids succeed. Our feedback strategy incorporates consistent and meaningful tracking of data pre, during and post training, along with interactions between leadership and coaches to evaluate the information. Our team is dedicated to the long-term planning of developing elite coaches and athletes. The word development requires a dedication from all parties while striving for improvement. It is important to note that the rating system is based on the Academy's standards and not the team standards or based on a team average.

### PURPOSE

This evaluation will be used to assess the current strengths and weaknesses of an individual athlete while establishing a baseline for future development.

### PLANNING

Coaches and athletes will use this evaluation to bolster their current strong points, using them to disrupt the opponent and direct energy and attention towards the opportunities for growth.

### RATING SCALE

1.0

**DEVELOPING:** Athlete has displayed a developing level in this category. This section should become an "on and off-field" area of focus for improvement. Be sure to get feedback on the NextGen methods.

2.0

**APPROACHING STANDARDS:** Athlete has show signs of achieving the NextGen standard in this category. The opportunity for growth must be considered and focused on.

3.0

**STANDARDS ACHIEVED:** Athlete has met the NextGen standards. Athlete should continue to strengthen this category. This strength will likely be greater than most opponents and should be used regularly.

4.0

**EXCEEDS STANDARDS:** Athlete is exceeding the NextGen standards in this category and sits in the top 5 percentile. This is a attribute that the athlete should exploit during training and a match.

This horizontal bar graph is there for display purposes, offering a different perspective against the entire rating scale of 0-4.

This horizontal bar graph is there for display purposes, offering a different perspective against the entire rating scale of 0-4.
